- Git/GitHub
- Zoom/Slack
- Agile Methodology
- Python

- Power BI
- STATA
- SQL
- Kanban Boards

DATA EXPERIENCE

Data Analyst Apprenticeship

NASHVILLE SOFTWARE SCHOOL | Jan 2022- Present

Intensive, real world, project management-based experience in data analytics using business intelligence and visualization tools. Learning includes communicating findings through presentations, storytelling, building reports/ creating dashboards using tools such as Excel, Python, SQL, Tableau, and PowerBI.

PROJECTS

- Lahman Baseball (PostgressSQL): I performed analysis of baseball statistics through a database consisting of 27 tables using many SQL queries like JOIN, CTEs, windows functions to identify various sources of data to present to management.

- City Cemetery Burials (Excel): In this project, I cleaned and explored dataset on Nashville City Cemetery burials from 1846 to 1979 and found interesting facts and created visualizations on age at death by race, gender, number of burials by year, causes of death and more and used my findings to create marketing strategy for the cemetery.

- App Trader (SQL, Excel): I cleaned, explored and analyzed data to gain insight from apps that are available from Apple App Store and Google Play Store. Visualized and presented data-based investment recommendations on the top 10 most profitable apps in both app stores, as well as what genres, price ranges, and content ratings of apps tend to be the most profitable.

WORK EXPERIENCE

South End Preschool – Assistant Director |2010-2020

- Directed preschool activities and provided daycare instructions.
- Prepared and submitted the budget for management approval.
